As I said before, I don't know what the level of communication is between you/EPA and OSMRE, but it may be helpful if OSMRE considered that letter in their complaint investigation/deliberations. I don't know how far along that process is, but hope for resolution in the near future.

I still haven't received a response from DMLR to comments (forwarded to you previously) on the draft they reissued/approved a month ago. I'm not sure if you could mention public participation requirements in the letter?

Thank you. Have a good weekend.

Jessica

We are going on that letter. Presently, I am working on another mining permit, but we should be able to send our letter by next week. Thank you for your interest on this matter. I am working from an alternative location, can be reached at 856/858-9345.

Thanks,

Francisco Cruz

Subject: specific objection follow up letter

Could you tell me if the EPA sent the follow up letter to VA DMLR, regarding EPA's objection to the permit renewal for Red River 0081401/1101401?

If yes, could you please forward me a copy?

If no, could you tell me if there are there still plans to send that letter?

Thank you,
Jessica

Subject: DMR

Here is the DMR. I'll send the benthic monitoring reports in separate emails b/c of the large file sizes.
